

## Profile

I love the Web. I created my first site in 2003 for my employer. Soon after, I sought a degree at Washburn in web development. While at Washburn, Shawnee County's IT director hired me to maintain their web properties after a brief internship. I also enjoy developing side projects. I have presented to the Topeka .NET User Group and the Kansas City Metro Area Government Webmasters on topics like [better web development](#) (with a focus on access/accessibility), [Photoshop](#), and regular expressions. I also enjoy helping people to better use their computers: especially one-on-one.

## Skills

- **Languages/Frameworks:** PHP, MySQL, HTML, CSS, JavaScript (e.g. Angular, and jQuery), and Regular Expressions (and other tech, buzzwords, and jargon, e.g. HTML5, XHTML, CSS3, Sass, Less, a heavy sprinkling of bash)
- **Apps/Suites:** Adobe CC (esp. Photoshop, Illustrator), MS Office (esp. Excel, Word, Outlook), etc.
- **Editors/IDEs:** Sublime, IntelliJ IDEA, and Dreamweaver (a bit stale on the last one)
- **Favorite Tools:** Transmit, Keyboard Maestro, Typinator, LaunchBar, Karabiner, CodeKit, Sequel Pro, etc.
- **Platforms/Operating Systems:** OS X, iOS, Android, and plenty of experience w/Windows 95 – 7
- **Lesser Platform/OS Experience:** Windows 8 and 10, Android, \*nix shells, and Windows CLI

## Experience

### Front-end Developer, Kansas.gov • Topeka • November 2014 – Present

While working for [Kansas.gov](#), I've worked to design and develop the present interface guidelines while building interfaces for applications like the new [Amber Alert](#) application for the KBI, enterprise-wide applications like KanAccess, the upcoming FormMail, and other one-off applications. I've been using a Subversion workflow while working on our Groovy/Grails applications. I have also helped to develop our strategy for the new KanSite program (to build sites for agencies, municipalities, and other organizations).

### Developer-Analyst, City of Olathe • Olathe • June 2013 – October 2014

At the City of Olathe, along with our team, I developed and maintain our sites (e.g. [olatheks.org](#), [Parks and Rec](#), [mahaffie.org](#), and our [Intranet](#)), and to a lesser extent internal applications, e.g. Moodle and Alfresco. I developed with Git and Vagrant. I used Drupal for most development. I was migrating older sites to responsive Drupal 7 sites. I was also involved in branding and other design. And I supported customers who use our systems.

### Web Applications Developer, Kansas State Treasurer's Office • Topeka • October 2011 – June 2013

At the Treasurer's Office, I helped to create and maintain applications which facilitate and record financial transactions of all sizes. I used an internally-developed framework. I helped the webmaster with other sites, like [kansasstatetreasurer.com](#) and [pooledmoneyinvestmentboard.com](#). I designed print work for marketing (e.g. newspaper, magazine, mailers, etc.).

### Programmer I/Web Administrator, Shawnee County • Topeka • December 2006 – September 2011

At Shawnee County, I maintained the County, Sheriff, Health Agency, and internal sites. I also created and maintained large and small Web applications, sub-sites, and more. Additionally, I created, designed and realigned user interfaces, forms, business cards, presentations, documents, spreadsheets and more, especially for posting on the Web. I ensured Section 508 compliance, search engine optimization, the use of best practices, etc.

### Investigations Clerk, Kansas Army National Guard • Topeka • December 2003 – February 2006

At the State Defense Building, I established guardsmembers' eligibility for medical care for service-related injuries. I created and maintained websites for our department and the Kansas Area Medical Detachment, etc.

### Medical Specialist (91B/91W/68W), U.S. Army • Fort Riley • June 1995 – November 2003

At the ER Irwin Army Hospital's ER (at Fort Riley) I provided low-level emergency treatment, admitted and screened patients, stocked supplies, ensured timely maintenance of equipment, and more. Before that, I served in 1-41 Infantry Battalion as a medic, screening patients, providing medical treatment, maintaining our armored ambulance, etc.

## Education

- The Web, Google, StackOverflow, tech blogs, O'Reilly, SitePoint, etc. • Web Design and Development, 2004 – present
- Friends University • Wichita — BBA, 2009
- Centriq Foss • Leawood and Topeka — JavaScript, Certificate, 2008; Visual Studio, Certificate, 2010

## Meta

- Technical Reviewer • Coding with Coda • Eric J. Gruber • O'Reilly
- Regular Presenter • Kansas City Metro Area Government Webmasters (before leaving public sector work)
